V. DELIBERATION AND RECOMMENDATION:

Deliberation began recommendation of additions to the prepared ordinance began and addressed the following:

Buildings in Open Space that are not related to permitted uses.
Chairman Krusinski stated that the intent of what is in the ordinance is that any building associated or not to Open Space must come before the ZPA.
Attorney Smith felt that if you want to establish a building pursuant to a special use in an open space district, you would have to have an underlying permitted use associated with it. After discussion on wording it was agreed that Section15.1903B will read “A special use for buildings and structures incidental to a permitted use including accessory buildings and structures related thereto.”

Discussion continued regarding structures that may already exist in open space…signs, etc. would they be grandfathered in. Attorney Smith stated that there is no more sunset clause under the Villages’ current ordinance, so any structures would be grandfathered.

Discussion was held on the Powers of the Forest Preserve. Attorney Smith explained that the Forest Preserve in the Village are subject to its’ zoning regulations, but we cannot frustrate their purpose and say no.

Chairman Krusinski requested that Item 13 on page 3 be expanded to be more forceful. After some discussion, he directed Attorney Smith to revise this section per the discussion.

Commissioner Miller asked for clarification of the approval process, fearing it may be too restrictive and Attorney Smith took the Commissioners thru the recommended application and approval process.

Commissioner Pickell questioned what would happen if the Federal Government wants to put a structure in open space and Attorney Smith explained that the Federal Government will prevail.
After brief deliberation, it was moved by Commissioner Leonard, seconded by Commissioner Meluso to approve a recommendation of an Open Space ordinance to the Village Board subject to the revisions agreed upon this evening.
